#### INFECTION CONTROL SPECIALIST

##### Metropolitan Region / New Rochelle Based

As a leading health care consulting organization, I PRO provides a full spectrum of health care assessment and improvement services with the goal of improving health care for the common good. I PRO, a not-for-profit organization, has a position is available for an Infection Control Specialist.

In this vital role, you will coordinate and oversee activities for the mandated Hospital-Acquired Infection Reporting Program in select NYSDOH regions. Duties will include monitoring and evaluating hospital reporting, assessing accuracy and identifying deficiencies, providing training to healthcare personnel on the Center for Disease Control and Prevention's National Healthcare Safety Network (NHSN) surveillance methods and providing feedback; assessing regional infection prevention programs, identifying best practice models, and working with local partners to integrate models in other health care facilities; establishing partnerships with local/regional APIC/hospital associations, providing technical consultation to regional staff on infection reporting, conducting joint investigations with NYSDOH staff, and providing technical consultation/assistance in health care facilities as needed. Occasional travel to healthcare facilities is required to conduct on-site audit (chart reviews).

We require a Bachelor's degree and 2 years experience in epidemiology, infection control, investigation of communicable disease or other relevant experience; OR a Master's degree and 1 year experience, OR a NYS
